

Films Aid ECC History Department

You are there! It's better than using a crystal ball, because facts come alive before your eyes.

History students at El Camino College see such historical events as the signing of the Declaration of Independence, the American Revolution, and the War of 1812, through the magic of celluloid.

STUDENTS of History I view films outside of the classroom. These movies supplement class lectures and text book information.

"The Social Science Division feels these films are of outstanding value to the students in drawing a concept of past events and movements in history," John A. de la Hays, assistant director of instruction, remarked.

ALL OF THE films are of recent date. They are rented from the film libraries of the Los Angeles Office of Superintendent of Schools, UCLA, USC, department of Public Relations from the United Nations, "University of Illinois" television films and the Coronet films. Movies are also rented from private rental agencies. El Camino College furnishes films from its film library.

Selection of the films shown is based on accuracy, instructional value, effectiveness and photography. History instructors view and evaluate movies before they are shown to students.

"WITH THESE historical films we are able to dramatize great moments of history, because of this students remember the action, location, setting, importance, and implications of historical events," de la Hays concluded.

Vets Advised On Steps for Cal-Vet Loan

The importance of qualified California veterans establishing their eligibility for Cal-Vet loans or educational assistance well before the time they actually seek loans or allowances was stressed today by Veterans Service Officer Sara R. Bridges.

Under state law, veterans must have in their possession a Cal-Vet Certificate of Eligibility proving their right to apply for farm or home loans or educational aid. This is the first step for any veterans who expects to apply for Cal-Vet benefits any time in the future, and it will greatly expedite the handling of his future application, once he has established eligibility.

THOSE eligible for Cal-Vet benefits are veterans who are natives of California or who entered active armed forces duty in time of war from this state.

The procedure for establishing eligibility is simple. The veterans should obtain from the Veterans Service Office, or from any office of the California Dept. of Veterans Affairs, a copy of form DVA-1, "Application for Certificate of Eligibility: Cal-Vet Farm and Home Purchase — Veterans Educational Assistance."

AS STATED in the instructions on the application, he must submit with the form a large clear photographic copy or a certified copy of his discharge or other official documents showing the date and place of his entry into active duty and the date and character of separation. If he has more than one period of service, he must enclose documents showing dates and places of all enlistments and discharges. If he is still in service he must submit a Statement of Service from his personnel officers. The DVA-1 and documents should be mailed to Department of Veterans Affairs, P.O. Box 1559, Sacramento.

If eligibility is approved, the veteran will receive from Sacramento a blue Certificate of Eligibility, signed by the Director of Veterans Affairs and which the veteran himself must sign. He should retain this permanently for future evidence of his eligibility when he wants to apply for a loan or for educational aid. Veterans who already established eligibility have a black-and-white, letter-size certificate. This is still good.

WHY IT PAYS TO SHOP AT THRIFTY

The Leading Drug, Variety, Jr. Department Store Since 1927

- Thrifty Sells for Less: and you get Blue Chip Stamps.
- 175 neighborhood stores with convenient parking.
- 25,000 items of quality merchandise in 52 compact self-service departments.
- Friendly people at your service more hours every day — 365 days a year.
